## CM 40 Automatic wrapper

This machine, especially designed for the cosmetic market, meets the request of reduced overall dimensions, accessibility, a very easy size changeover procedure and maximum reliability.

Fully automatic machine to wrap small and medium-sized products, using reels of heat-seal wrapping material PP, PVC, PE, cellophane, etc. Simple and easy access mechanisms. Film feeding by means of grippers mechanical to change the film length for each different product.

**Technical and operational specifications:**  
 Production speed: up to 60/1'  
 Standard voltage: 380V - 50Hz  
 Absorbed power 2,5 / 3,5 Kw  
 Air consumption 50 NIT/1' at 6 Atm  
 Standard colour RAL 9006 (Grey)  
 Net weight CM 40 Kg.750  
 CM 25 Kg.820

The CM40 is available in 3 different configurations/models according to the size that has to be worked.

	CM40		CM40SE		CM25	
	Min	Max	Min	Max	Min	Max
A	60	300	60	300	100	450
B	50	150	100	250	100	250
C	25	90	30	120	30	120

	CM40		CM40SE		CM25	
	Min	Max	Min	Max	Min	Max
D	150	550	150	750	150	750
E	125	400	125	400	125	550

- Options**
- Tear tape application
  - Printed film registration
  - Film perforations
  - Leaflet insertion
  - Wheels for machine displacement
  - Lateral sealing belts
  - Film lengthcontrolled via programming keypad
  - Toothed output device (spacing chain) for particular or soft products
  - Use of not heatsealable material, e.g. Kraft paper
  - Reel trimming unit

Further, the film feeding system allows for the use of difficult and thin films and by stopping the film over the product guarantees an unsurpassed aesthetic quality of the overwrap. The machine is equipped with PLC as standard. The electric system, noise level and operators guard are European standard.

- A compact, quiet, accessible, ergonomic and completely protected machine.
- Self-diagnosis with display: immediate elimination of the anomalies detected and minimum loss of productivity.
- The simples mechanics for a perfect heat seal
- Excellent price-performance value.
