DETAIL A  
SCALE 2 : 1

Size: Scharffen Berger A

- Remarks:
- Lareka advices a cardboard between 240 gsm and 280 gsm.
  - Unfortunately, due to the diversity of materials, we cannot guarantee in advance the drying time of the ink. Therefore, we recommend keeping the date coding area free of colors and finish lacquer.
  - Unfortunately, due to the diversity of materials, we cannot guarantee the adhesion of the adhesive in advance. Therefore, we recommend keeping the glue area free of colors and finish lacquer.
  - Lareka will make a die-cut for the cardboard design. After several tests with the sample cardboard, we will finalize the design. Therefore do not make mass production of the cardboard upfront.
  - No rights can be derived from this drawing.
